Professional Pricing Policy

Subject: **Once per Lifetime Procedures**	
Policy Number: HLCP-0011	Policy Section: **Coding**
Last Approval Date: September 1, 2020	Effective Date: October 17, 2020

Disclaimer

These policies serve as a guide to assist you in accurate claims submissions and to outline the basis for allowed amounts for HealthLink members. The determination that a service, procedure, item, etc. is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis. You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with Current Procedure Terminology (CPT) codes, Healthcare Common Procedure Coding System (HCPCS) codes and/or Revenue codes. The codes denote the services and/or procedures performed. The billed code(s) are required to be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our policies apply to participating providers and facilities.

If appropriate coding/billing guidelines are not followed, HealthLink and/or its Payors may:

- *Reject or deny the claim*
- *Recover and/or recoup claim payment*

These policies may be superseded by provider or State contract language, or State, Federal requirements or mandates.

We strive to minimize delays in policy implementation. If there is a delay, we reserve the right to recoup and/or adjust pricing accordingly to the effective date. HealthLink reserves the right to review and revise its policies periodically when necessary. When there is an update, we will publish the most current policy to the website. Note: medical claim pricing and processing services provided by HealthLink are available to a payor; however not all payors purchase such services for the benefit plans they sponsor.

Policy

When HealthLink identifies a once per lifetime procedure on a current claim and identifies a historical claim with the same procedure code or a different procedure code that includes the current procedure in the description (code grouping), the current procedure will not be allowed.

In addition, there exists once per lifetime procedures that may be reported bilaterally. For those procedures that might be done bilaterally, more than one procedure will be allowed when the appropriate site specific modifier—LT for left side and RT for right side—is appended to the procedure code along with any other appropriate modifier.

Any subsequent once per lifetime procedure reported without an appropriate modifier to identify why the procedure is being reported more than once will not be allowed.

There may be times, however, when a once per lifetime procedure is reported more than once, such as discontinued procedures, surgeries that require an assistant surgeon, or split surgical care. When a circumstance arises where a once per lifetime code would be reported more than once, the once per lifetime procedure must be reported with the appropriate modifier. The following table identifies by code or code group the procedures that are described above. The inclusion or exclusion of a specific code does not indicate eligibility for allowance under all circumstances.

Related Coding

Modifier/Code	Description	Comment
53	Discontinued procedure	
55	Postoperative management only	
56	Preoperative management only	
80, 81, 82, AS	Assistant surgeon services	
27080	Coccygectomy, primary	

HealthLink®, Inc., is an Illinois corporation. HealthLink, Inc. is an organizer of independently contracted provider networks, which it makes available by contract to a variety of payors of health benefits, including insurers, third party administrators or employers.
